

# ROAMBI DELIVERS REAL-TIME MOBILE COLLABORATION WITH SALESFORCE

salesforce.com  
AppExchange Partner

Roambi™

Roambi reinvents the way people interact with Salesforce data and improves the way on-the-go people make decisions. With seamless Sales Cloud integration, Roambi transforms existing Salesforce data into award-winning analytics specifically designed for iPhones and iPads. With Roambi, your sales team can review up-to-the-minute customer information, analyze

individually tailored reports, and collaborate on Roambi insights within Chatter.

With a focus on simple, intuitive apps and triple-layered security, Roambi has been named to more than 40 "Top Business Apps" lists and is the recognized leader in engaging mobile app design, a leading factor in end-user adoption.

# ROAMBI + SALESFORCE

# SALESFORCE INTEGRATION

## SALESFORCE.COM INTEGRATION

Roambi Analytics ES4 integrates directly with your Salesforce data and uses your existing Salesforce portal credentials to protect your business information. This tight integration gives people the details they need for smart decision-making and impromptu presentations. As a native application Roambi Analytics are stored within the Sales Cloud and can be used online or offline for a true anytime, anywhere experience.

## ROAMBI FLOW

Roambi Flow is an innovative information publishing platform that combines dynamic Roambi Analytics, video, and context within a secure, magazine-style publication that lets people focus on content, not layout, when sharing information.

With a simple, point-and-click publisher Roambi Flow lets users quickly combine Salesforce data with the human insight and perspective that is lost in spreadsheets and slide presentations. Each unique Roambi Flow publication clearly communicates the 'whole story' in a format designed for the new information destination—the iPad.

## CHATTER COLLABORATION

Roambi Analytics were designed for how mobile people access information. When combined with the real-time nature of *Chatter*, people on-the-go can view engaging analytics on their iPhone or iPad and collaborate in ways that were not previously possible.

To help mobile professionals stay up-to-speed, people can now post and comment on Roambi Analytics reports within *Chatter*. Roambi Analytics reports created with data from Salesforce, as well as business intelligence platforms from *SAP*, *IBM*, *Microsoft*, and *Oracle*, can be posted to *Chatter* with the click of a button and shared across your entire sales force while tracking all follow-up posts and comments.
